Area	Findings
Refuse area	In general we found an increase of activity in this area. This area will be monitored closely with each visit
Buildings 1 – 7	<ul style="list-style-type: none">A decrease in activity was found in most areas to a manageable state. However we did find there was a big increase at Dombeya. These boxes were baited with extra bait

General findings	<p>Just a reminder, with regards the rodent boxes that need to be re-installed and replaced, please can you advise the cleaning staff not to move or damage the boxes, as this will cause an increase of rodent activity.</p> <p>We have also found that you have an ant and snail infestation. Treatment is recommended. Pestinators can assist you with this treatment.</p> <p>During our inspection we found evidence of cockroaches. We can assist all the owners with this treatment.</p>
