Rodents

Outside

Date	Area	Treatment Done:
Feb 2019	Main Parking area	<ul style="list-style-type: none">All boxes were checked for activity / The activity in this area has decreased, but we will still monitor it closely due to the proximity of the electrical room
	Garages	<ul style="list-style-type: none">There was a decreased in rodent activity at the top side of the garages – at the stairs and refuse area, but the areas closer to the main road had an increase of activity
	Additional Parking - Garages	<ul style="list-style-type: none">We have noticed a big increase in activity in this area / This area will have to be monitored closely / Additional boxes may be needed
	Electrical Rooms	<ul style="list-style-type: none">We have noticed a slight decrease in activity / This area will be monitored closely
	Apartment pathway – ground floor only	<ul style="list-style-type: none">All boxes were checked / There was a slight decrease in activity, but an increase in the area of the electrical rooms
	Washing line area	<ul style="list-style-type: none">One of the boxes had to be re-baited / Activity has increased in this area and will be watched closely

Area	Findings
Outside	<ul style="list-style-type: none">- All rodent boxes were checked for rodent activity.- There is still an increase of activity around the units closest to the electrical rooms and the additional parking area on the far end of the complex. Pestimators will be monitoring the activity in these areas <p><u>IT IS OUR RECOMMENDATION TO DO A MONTHLY TREATMENT TO BREAK THE LIFE CYCLE THE PEST</u></p>
